ABOUT

BJACKSON PHOTOGRAPHY

Hi there!

I'm Brandon, the face behind BJackson Photography.

What started as a hobby back in 2015 has turned into one of the biggest blessings in my life. Over the years, I've met incredible couples, heard their stories, and had the honor of capturing some of the most meaningful, joy-filled moments of their lives. I truly don't take that for granted...

I'm based in Central Virginia but love to travel anywhere your story takes me. Most weekends, I'm out there photographing weddings – laughing with my couples, fixing veils, moonwalking on the dance floor, and making sure everyone feels like they're hanging out with an old friend who just happened to bring his camera.

Because here's the thing: picking your photographer is a massive deal. You're not just hiring someone with a nice camera. You're inviting someone into one of the most beautifully chaotic days of your life. You want someone who can make you laugh when the nerves hit, keep things calm when the schedule goes sideways, and still capture the kind of photos your future kids will look at and say, "Dang, my parents were HOT!"

After going through my own wedding with my wife, I know firsthand how fast it all goes by. The moments that stick with you aren't necessarily the perfectly posed ones – it's the small jokes whispered during golden hour, the wink you share during your vows, and the joy of the dance floor surrounded by a few of your favorite people. That's what I'm there for!

After more than a decade in this business, I've seen it all – the perfect days, the unexpected rain, the packed dance floors – and through it all, my goal is to make your day feel easy, fun, and completely YOU!

I'll be there to fix your dress, find your missing bouquet, and definitely hype you up! Because you deserve photos that look incredible and remind you of the best day of your life.
